ANDRES SUTT D/B/A  
MINISTER OF CLIMATE  
KLIIMAMINISTEERIUM  
SUUR-AMEERIKA TN 1 TALLINN [10122 ESTONIA]

To all those concerned and their heirs and successors:

We, the Living Men and Women on Terra Esthia, who live on this land, which we call Terra Esthia [commonly known as Estonia] and also the islands of Terra Esthia, which are once again under the jurisdiction of the Land and Soil, and the relevant documentation accompanying this letter. We demand the immediate cessation of all preparations for military action, the dissemination of military information, and in this regard, we prohibit the transmission of commercial military offers and notifications through any private or public sources to the people on the Land and Soil of Terra Esthia .

You, who represent corporations that are under municipal, ecclesiastical, admiralty, or maritime commercial jurisdiction, and who seek to harm Living Souls with your commercial conflicts, which you call "war" but which are not actually a war, are unacceptable, and contrary to Our free will. Your task is to resolve conflicts between corporations in such a way that we and our property, the Land and the Soil, remain undamaged. We, the Living Men and Women, have nothing to do with the conflicts between your corporations, so it is your duty, "Usufruct Duty," to hold us and our property unharmed, as established by the Hague Convention. We, the Living Men and Women, are peaceful and live in peace, and we choose to continue living peacefully on Terra Esthia's Land and Soil. In case of a violation of our peace resulting in harm to us or our property, the official responsible shall be obliged to compensate each Living Soul here 9,000, nine thousand tons of silver, as well as equivalent in number to the Living Men and Women harmed on the Land of Terra Esthia, must be restored through the surrender of Living Souls from your bloodlines.

We say that We and Our Ancestors are Native people, born on this peaceful Land on Terra Esthia [known as Estonia], have never authorized any change of our birthright status. This is important because it demonstrates the absurdity of claiming that we are combatants in any kind of war, that we are enemies of any state, or subject to any foreign military law. If our birthright status has been changed by any nation at war it is proof of violation of the Geneva Convention Protocols of 1949, Volume II, Article 3 and prima facie evidence of a capital crime having been committed by agents of the IMF and the UNITED STATES, UNITED NATIONS/ United nations, NATO, EUROPEAN UNION/European Union and Republic of Estonia and their franchises under color of martial law.

We, the Living Men and Women, have the inherent birthright as Terra Esthia Nationalists to live on this land with full rights and to manage it in peace.

The Trust requires **care taking**. This generation cannot destroy what is owed to the next. It is every adult's duty to hand over The Trust in the same or better condition than he received it.

We say that we never authorized anyone to offer us or our credit or any asset of our private estates as surety for the debts of any governmental services corporation whatsoever and we did not take any sides or participate in any war and we do not recognize any right of conquest related to us and our property. No corporation on Earth has authority to declare war and therefore has no legitimate claim upon the Laws of War nor the Law of Nations. "FALSUS-IN-UNO-FALSUS-IN-OMNIBUS"

We, the Living Men and Women on Terra Esthia, prohibit any activities on the Land and Soil on Terra Esthia that harm our People, including all the following activities:

- Phosphorite and uranium mining;
- War advocacy and the use of other intimidation techniques by any means, including mercenary conflicts using mercenary armies. To stop all construction of military objects on Terra Esthia and to restore the natural environment of Nursipalu by the complete removal of military objects;
- Wind Turbines erection and use or whatever you call them and its waste stowing and matting;
- Solar park/solar farm/ photovoltaic park or whatever you call them and its waste stowing and matting ;
- The use of remotely readable "Smartmeter" or whatever you call them;
- Use of 5G frequency bands, etc;
- The construction and operation of mobile satellite communication stations, or whatever you want to call them (for example: United States satellite company Globalstar ground station in the vicinity of Kilingi-Nõmme);
- Influencing and monitoring weather by technology which is harming the health of Living Man and Woman including but not limited to: chemitrails, HAARP, weather radar, spraying nanographene, transfer precipitation and hide natural sunlight with man-made clouds and other variations of this name and theme.
- The construction and use of ammunition factories and related storage facilities, or whatever you call them, and the stowing and burial of its waste;
- The construction and operation of high-voltage power lines greater than 110 kV;

- The construction and operation of Rail Baltic;
- Treatment of drinking water with fluoride;
- The use of pesticides, plant protection products, fertilisers and other chemicals that pollute nature and groundwater;
- The use of Heavy Equipment for Forestry and clear-cutting/clearcutting and other variations of this name;
- Organising pandemics and deliberately causing and transmitting other viruses and diseases, as well as preparing and disseminating information based on false diagnoses;
- Mandatory and compulsory vaccination;
- The addition of nanografen and other dangerous additives to food (E621, E951, etc.) including insects, crickets and human DNA, etc;
- Human trafficking and organ donation (and adrenochrome).

These acts are commercial and international crimes against humanity, punishable by the Common Law Jury.

The facilities already existing at the above listed points must be dismantled within a reasonable time. We consider 3-5 years to be a reasonable period. The deadline is 7538 T.T.R.S. [ 2030 anno domino].

We ban wind farms, solar farms, nuclear power plants, high voltage power lines larger than 110 kV that are harmful to the Nation, and thus we will demand that you as a service provider make free energy technology available to the Nation.

We inform you that in 2013, in Vatican City, Pope Francis issued an "APOSTOLIC LETTER, ISSUED *MOTU PROPRIO*, OF THE SUPREME PONTIFF FRANCIS, ON THE JURISDICTION OF JUDICIAL AUTHORITIES OF VATICAN CITY STATE IN CRIMINAL MATTERS", by which he removed the immunity of all agents and officials and since then all agents and officials are personally liable.

The "office" and "authority" they claim to have, and the form they may wear, do not protect them in any way, shape or form- "QUI-FACIT-PER-ALIUM-FACIT-PER-SE". See the Nuremberg Process and the Geneva Convention documents in this context, to which most countries, including the Republic of Estonia, signed in 1992.
